STATEMENT OF NO NASA ACTIVITIES

Sir:

I, James Benjamin Moates, being a citizen of the United States of America, residing at 337 Louise Circle, Destin, Florida 32541 declare the following.

1. That I made and conceived the invention described and claimed in United States Patent Application Serial No. 10/797,681 (the "681 Application") filed on March 5, 2004 in the United States of America titled, "Hanger Assembly for Aircraft".
2. That I made and conceived this invention while employed by DRS Training & Control Systems, Inc. (formerly Metric Systems Corporation) located at 645 Anchors Street, Ft. Walton Beach, Florida 32548.
3. That the invention is related to the work I am employed to perform and was made within the scope of my employment duties and that the

invention was made during working hours and with the use of facilities, equipment, materials, funds, information and services of DRS Training & Control Systems, Inc.

4. Other relevant facts are that a) I have been employed at DRS Training & Control Systems, Inc. since March 1994; b) during that time period I have worked on only one National Aeronautics and Space Administration ("NASA") contract (from March 1994 through January 1995) regarding the design, fabrication, and testing of a satellite container which work and contract has no relationship to the subject matter of the '681 Application which pertains to air combat maneuvering instrumentation (ACMI) subsystems for fighter aircraft and c) based on information and belief, DRS Training & Control Systems, Inc. has not been awarded a NASA contract since the aforementioned NASA contract regarding a satellite container.
5. The invention was not made (conceived or first actually reduced to practice) under nor is there any relationship of the invention to the performance of any work under any contract of NASA.

The undersigned inventor declares further that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Respectfully submitted,

James Benjamin Moates
337 Louise Circle
Destin, Florida 32541
